Professional Summary

Computer Science graduate from IIIT Bhagalpur with experience developing full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Built REST APIs, analytics dashboards, and machine learning systems through academic projects. Strong understanding of data structures, algorithms, and backend application design.

Education

Indian Institute of Information Technology Bhagalpur <i>B.Tech in Computer Science and Engineering</i>	2021 – 2025 <i>CGPA: 7.04</i>
Jagdish Mandal Inter College <i>Bihar School Examination Board (Class 12)</i>	2017 – 2019 <i>83.2%</i>
Bhagi Rath High School Nirmali <i>Bihar School Examination Board (Class 10)</i>	2016 – 2017 <i>72.6%</i>

Technical Skills

Programming Languages: C++, JavaScript

Frontend: React.js, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs

Database: MongoDB

Developer Tools: Git, GitHub, Postman, VS Code

Core Concepts: Data Structures, Algorithms, Operating Systems, Object-Oriented Programming

Projects

Malaria Detection Using Deep Learning (Website Link) <i>Medical Imaging Analysis</i>	Jan 2025
– Developed a VGG19 deep learning model achieving 92% classification accuracy for malaria detection from blood smear images. – Processed and analyzed 20,000+ medical images using Python data pipelines and augmentation techniques. – Designed a Flask REST API integrated with a React.js interface for real-time prediction results. – Performed model evaluation and image preprocessing using TensorFlow, Keras, NumPy, and OpenCV.	
Craftvilla — E-commerce Analytics Dashboard (Website Link) <i>Full Stack Web Project</i>	March 2024
– Developed a full-stack analytics dashboard with JWT authentication and role-based authorization. – Analyzed 1000+ sales records using MongoDB aggregation pipelines to generate business insights. – Improved frontend responsiveness by 40% through optimized API requests and efficient state management. – Implemented backend services in Node.js and Express.js for product management and analytics processing.	
ExploreX (Website Link) <i>Responsive Travel Website</i>	Sept 2023
– Developed a responsive travel website with a modern and user-friendly interface using HTML5, CSS3, and JavaScript – Built interactive features including responsive navigation, smooth scrolling, image sliders, and scroll-based animations to enhance user experience. – Improved page performance through optimized assets, organized code structure, and efficient frontend development practices. – Managed version control using Git and GitHub, and deployed the project on Render.	

Achievements

Smart India Hackathon Finalist <i>Team Leader</i>	2022
– Led a team of 4 members to develop a placement tracking portal within a 36-hour hackathon. – Designed dashboards to monitor placement data for 100+ student records.	
Web Development Competition — 7th Place <i>Techno Cultural Fest</i>	2022
– Presented the Tour Navigation application built with Node.js, Express.js, and dynamic UI components.
